announce the organization of

the Second Edition of
The International Conference “From Science to Guidance and Practice”
06th - 07th June 2016, Bucharest, Romania

Organized by the Romanian Academy, Section of Medical Science, the Romanian Society for Pharmaceutical Science and O. F. Systems, under the auspices of the International Pharmaceutical Federation (FIP), the conference will be held in Bucharest, between June 06th - 07th 2016, at the Romanian Academy Library.

The first edition of the International Conference “From Science to Guidance and Practice” was favourably received and attended by more than 250 representatives of medical and pharmaceutical scientists, from Romania and abroad. Following its success and considering the continuously increasing applications of the in vitro tests in drug development, this year’s edition will be focused on the dissolution and drug release methodologies.

The conference is dedicated to the 150th anniversary of the Romanian Academy, acknowledging its important role in the development of medical and pharmaceutical sciences.

The conference has been credited by the Romanian College of Pharmacists with 20 EFC credits.
